

STUDENTS, GET TO KNOW YOUR FACULTY!

OPEN DAY AT WA PG 1 October 2025

Dear Students! We invite you to the Open Day at the Faculty of Architecture, which will take place on 1 October 2025. This special day is dedicated exclusively to you!

This is your chance to:

Get to know the Faculty from the inside - find out how the dean's office works, what the procedures are and where to seek help

Meet the Dean for student affairs - the person who will support you throughout your studies

Establish contact with the Faculty Student Council - the main representative body of students at the faculty

Discover opportunities for academic development - learn about the Research Clubs operating at the Faculty

Find out about the support offered by the university - representatives of BORF will talk about all forms of assistance offered by Gdańsk University of Technology

The programme of the day also includes an 'Open Day of Departments' - a unique opportunity to visit all the departments of the Faculty of Architecture and learn about the specialisations, diplomas and classes they offer. It is a great opportunity to find out from the very beginning in which direction you can develop your interests!

We are waiting for you!

The first year of study is a time when your student habits and development paths are formed. In the first semester, you must complete mandatory training - but our meeting is much more than just a formal requirement. It is an investment in your academic and professional future. According to the regulations, you have the right to training in the rights and obligations of a student, and our introductory day is the perfect opportunity to learn about these rights in a practical way.

Do not miss this opportunity! This day may determine how well you will fit in at the Faculty and how effectively you will use all the opportunities offered by Gdańsk University of Technology. Come, meet the people who will support you, and start your studies with full knowledge of what awaits you!

See you on 1 October!

Faculty of Architecture, Gdańsk University of Technology

8:15-10:15, room 264 in the Main Building

First-semester students of the first-cycle programme in Architecture

8:15-9:20 - Meeting with the Dean's Council of the Faculty of Architecture; Presentation by BORF on the support offered to students by Gdańsk University of Technology and meeting with the Dean's Representative for People with Disabilities
