

Physics and Nanotechnology

Faculty of Applied Physics and Mathematics and the [University of Camerino](#) offer dual degree studies in Physics with individual study paths.

Upon successful completion of the program students are awarded the following degrees:

- Master of Physics (awarded by Gdańsk Tech)
- Master of Physics (awarded by UNICAM)

At the moment, we are working on a new 2-year joint double-degree Master's program of several different curricula. Upon graduation students will be awarded the following degrees:

- Master of Physics or Master of Nanotechnology (awarded by Gdańsk Tech)
- Master of Physics (awarded by UNICAM)

depending on the chosen study path. Students will spend one year in Gdańsk and one in Camerino. Detailed study plans will be known soon.

For further details please contact one of our coordinators:

- Justyna Szostak (Gdańsk Tech, justyna.szostak@pg.edu.pl)
- Angela Trapananti (UNICAM, angela.trapananti@unicam.it)
