The **FNMA'15** Conference will be held on Zakynthos Island (Greece) on **6-10 September 2015**

The aim of the Conference is to provide an opportunity for a meeting of scientists and technologists working on novel functional and nanostructured materials.

The conference programme will cover experimental investigations, theory and modelling of:

- Photonic and optoelectronic materials
- Magnetic materials and diluted magnetic semiconductors
- Catalytic and photocatalytic materials
- Nano- and Micro-sized materials for electronics
- Nanoparticle materials and nanolitography
- Nanobiotechnology
- Physics and technology of nanostructured semiconductors and superconductors
- Metamaterials with special emphasis on Auxetic materials and models
- Ab initio methods for nanospectroscopy
- Organic, hybrid and composite materials
- Micro/Nano Electro Mechanical Systems (MEMS/NEMS): technology and applications
- Physics and technology of carbon nanotubes and carbon-based materials
- Industrial applications of nanotechnology
- Nanotechnology Health & Safety
- Photovoltaics

Notes about abstract submission

The abstract should be prepared using any common variant of TEX (e.g Latex). A template with the Latex file source is included here. All you need to do is just put the text of your abstract into the marked places in the template file. Figures should be submitted as separate files, preferably in Encapsulated PostScript (EPS) or TIFF formats (300 dpi). The text and figure files should be packed in one archive and compressed using a common utility such as PKZip or tar + gzip. This ONE archive should be submitted as your abstract file. If you do not plan to include any figures in your abstract, you do not need to pack or compress it, just use the TEX file as the abstract.
